

Baths Made For Princesses & Cowboys

If your little girl takes pleasure in fairy tales with kings, queens and princesses or if your young lad enjoys playing cowboy, they'll love these CDs from **Tippy Toe Toons** we've unearthed. For young ladies **Tippy Toe Toons** Princess CD makes bath time a royal experience with Sir Washalot and Lady Elizabeth helping your princess bathe herself from head to toe.

The idea behind Tippy Toe Toons came to Geoff Koch while babysitting his brother's 5-year old twin boys. Childless at the time, the question he so innocently asked himself before agreeing to sit was, "How tough could it be?" Within hours, Geoff and his wife, award winning country singer Kellie Coffey, were at their wits' end trying to get the boys into the bathtub. But Geoff had something most mere mortal parents don't. He is an immensely successful Hollywood singer, songwriter and cartoon voice-over performer. So when he dips into his baby-sitting bag of tricks he pulls out funny voices, songs, and some very professional silliness.

The Princess CD takes your little girl to a whimsical land where Sydney Scrubbins, the finest washer in the business, the Merry Maidens, the Town Cryer and more all live & are ready to bathe the royal princess! Sir Washalot is convinced only a princess with clean hair can wear a finely polished tiara so Lady Elizabeth summons in the royal shampoo with sugar and spice and everything nice with a touch of spring. Your little princess will be more than excited for you to shampoo her hair. When the town cryer has decreed your princess is sufficiently clean, it's time to fetch the royal towel for Lady Elizabeth to wrap her in to dry off in preparation for pajamas. Then it's off to tooth brushing, then story time and off to gentle slumber land.

We haven't forgotten young cow-pokes who have ridden the dusty trail all day long. Your young cowboy will be guided through bath time with **Tippy Toe Toons** Cowboy CD with two orbery characters, Jimbo and his horse Rufus. I love the sound of a coyote's howl triggering Rufus to ask Jimbo what the sound was, and Jimbo replies "it sounded like sham-pooooo!" That's your cue to bring in the Coyote shampoo to lather your cowboy's head up! Then Fannie Soakly will dry him off.

The singing is superb and actually reminds me of watching a musical. The upbeat tempos and fun rhymes are a treat to listen to. The CDs really made bath time a
